PROFILE

I am a web/mobile developer, specializing in JavaScript and React. I graduated with a computer science degree in 2022 and have experience creating several full-stack projects. My aim to build efficient and scalable software that solve real-world problems. I aspire to utilize my education while gaining experience from seasoned developers to provide valuable contributions to a forward-thinking team.

WORK EXPERIENCE

PROPERTY MANAGER/OWNER, SGS PROPERTIES

2014 - current Ft. Lauderdale, FL

- Managed all operations for 16 units including budgeting and tenant acquisition
- Converted legacy systems to 100% digital using digital encrypted leases and a database management system
- Utilized local assistance programs during pandemic rental market shortage, matching low-income families with housing
- Improved marketing strategies and search engine optimization, leading to increased rates of lease renewals

PROJECTS

REALTY SOLUTIONS

Property management application for owners of rental units to manage finances and communicate with tenants. Features HUD.gov API integration, separate user roles using JSON web tokens with HTTP signed cookies, contextAPI with reducer, protected routing, and mongoose models.

SIMPLER FITNESS

Full-stack fitness app which retrieves workout instructions and animations based on experience level and available equipment inputs. Built in JavaScript using React and NodeJS. Workouts are retrieved from MongoDB and efficiently loaded with paginated results rendered with infinite scroll.
